# CANNICE

Shandong Cannice Sports Equipment Co., Ltd is the wholly owned subsidiary of ABEO Group, a French listed company. We are located in the National Economic Development Area of Dezhou city, Shandong province, China.

Thanks to the strong R&D capability and advanced experiences of gymnastics and sports equipment from ABEO Group, CANNICE has inherited the craftsmanship of German historical sports brand ERHARD SPORT, achieving the strategic connection of German design and Chinese manufacturing. The company has made remarkable progress and reached the international first-class level in new product development, production technology and product quality.

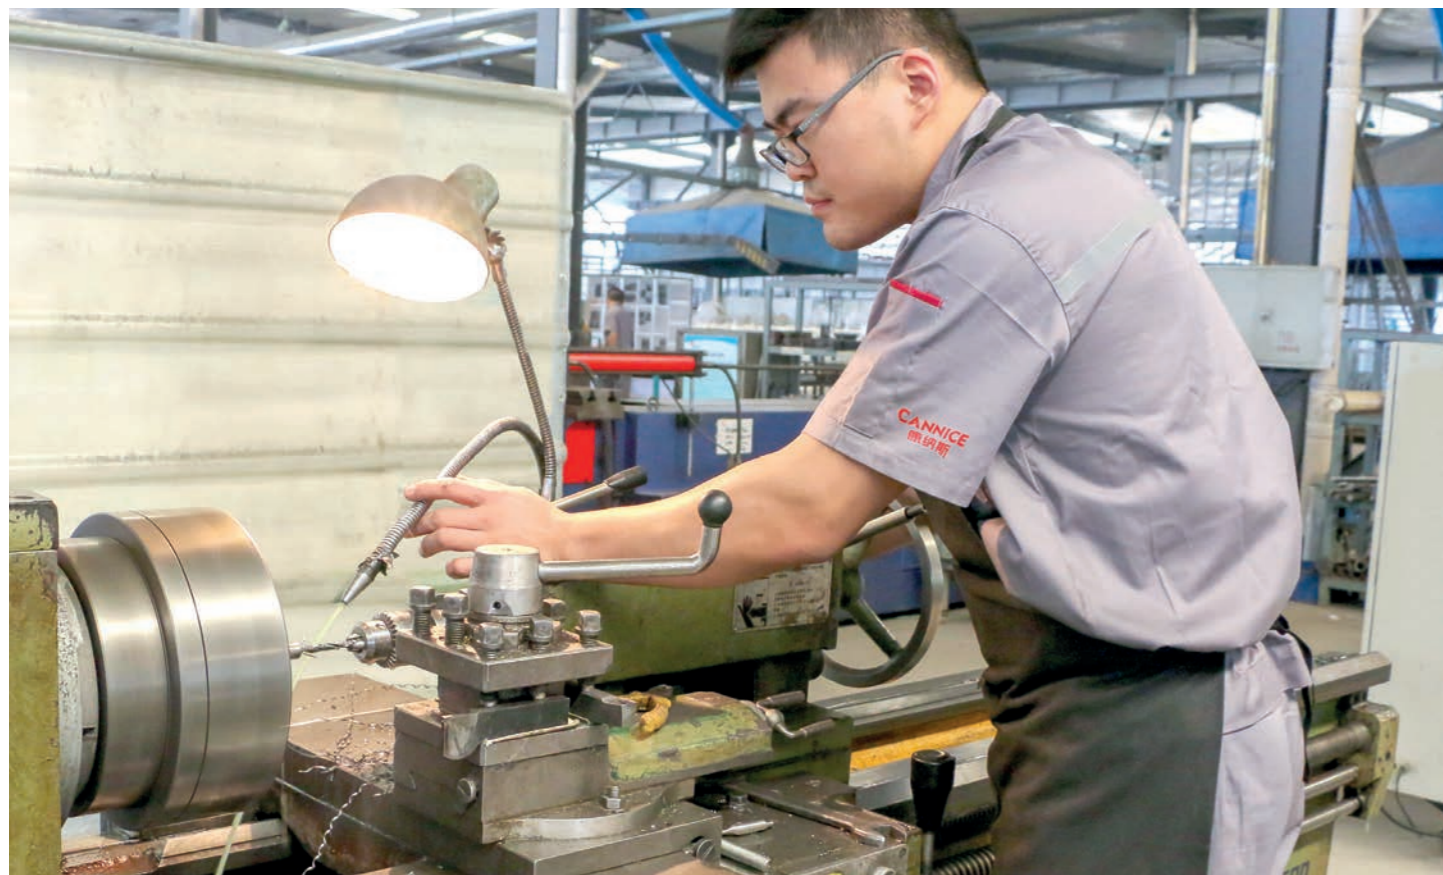

After two years of research and development, the company has received all the FIG certificates from International Federation of Gymnastics for competition gymnastics apparatus.

In addition, by listening to the needs of professional gymnasts with technical personnel of the company, a series of training apparatus has been developed. These innovative apparatuses meet not only the needs of daily training, but also reduce the occurrence of sports injuries effectively.

CANNICE also focus on the gymnastics equipment for young gymnasts, participated in the setting of equipment standard of children gymnastics (Happy Gym) in China. We have designed a complete range of Happy Gym apparatus and various physical education equipment.

Being a premium gymnastics and sports apparatuses supplier and manufacturer, CANNICE is certified in quality management according to ISO9001 norm. We also pay highly attention on the environmental management and occupational health and safety management systems, we are certified ISO 14001 and OHSAS 18001.

## APPARATUS

**CANNICE VAULTING TABLE (WA20)**

10.04.01001

## Equipment Features

- FIG Certified
- High absorption top drastically reduces the impact on joints
- Column padding included
- Simple height adjustment from 110 to 140cm in 5cm increments
- Table top covered with a tough, non-slip material
- Wide base and easy leveling footpads provide improved stability
- For training and competition use
- Gas spring and handle for smooth and easy height adjustments

**CANNICE VAULTING TABLE WITH TRANSPORT WHEELS**

10.04.00022

**FOAM VAULTING TABLE**

10.19.00152

- Comprises 4 sections which can be stacked to create different heights and angles
- Top surface made of anti-slip artificial leather
- Floor size 90 x 75 cm
- Total height variable 50, 75, 100 or 125 cm
- Connected to floor or mats with Velcro

**VAULT ASSISTED TRAINER**

10.16.00004

- Specially developed for training
- Split design, small size, easy to move
- Divided into 7 sections, each section height is 40cm, 20cm, 10cm, 10cm, 10cm, 15cm. It is easy to disassemble and assemble. Each wooden box is made of 1.2cm thick high-quality multi-layer board. The top layer wooden box is fixed on the Vault, and the Vault is fixed with a 20cm thick cushion.
- Overall dimensions : L120cmxW95cmxH135cm

**LARGE TRAPEZIUM FOAM MODULE**

10.19.00153

Foam box consists of 4 elements. Each section is made from dual density foam, with a harder area on top for stability. Carrying handles, anti-slip base.

Several possible heights: 30, 60, 90 and 120cm.  
Height of each module: 30cm.  
Overall dimensions: 120x90/40x120cm (LxWxH).

Module dimensions:

A: 120x52.50/40x30cm (LxWxH)

B: 120x65/52.50x30cm (LxWxH)

C: 120x77.50/65 x30cm (LxWxH)

D: 120x90/77.50x30cm (LxWxH)

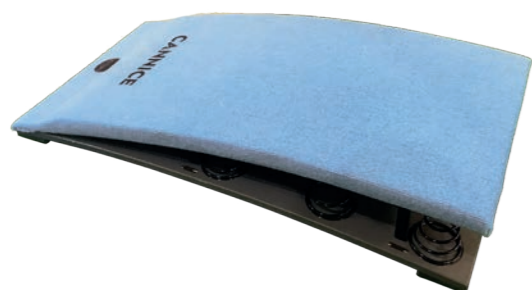

**CANNICE SPRINGBOARD HARD**  
10.15.01001

- FIG certified competition springboard, hard version
- Equipped with revolutionary Whisper Spring System
- Improved dynamic characteristics in the lower rebound area
- 8 conical tempered steel springs
- Surface made of 2.5cm special foam and hard-wearing needle felt
- Suitable for body weight between 50-100kg

**CANNICE SPRINGBOARD SOFT**  
10.15.01002

- FIG certified competition springboard, soft version
- Equipped with revolutionary Whisper Spring System
- Improved dynamic characteristics in the lower rebound area
- 5 conical tempered steel springs
- Surface made of 2.5cm special foam and hard-wearing needle felt
- Suitable for body weight between 40-75kg

**CANNICE CLUB SPRINGBOARD HARD**  
10.15.01014

- Training springboard, hard version
- Standard board size in curved plywood
- Equipped with revolutionary Whisper Spring System
- Improved dynamic characteristics in the lower rebound area
- 7 conical tempered steel springs
- Surface made of 2,5cm special foam and hard-wearing needle felt
- Suitable for body weight between 50-100kg

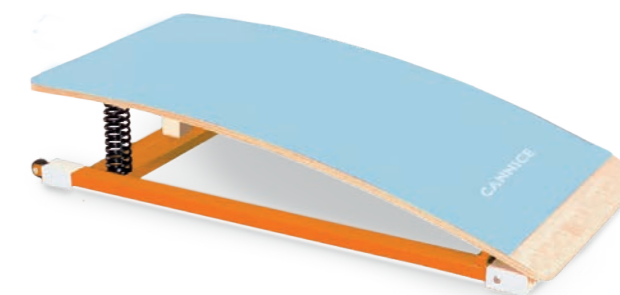

**CANNICE CLUB SPRINGBOARD SOFT**  
10.15.01015

- Training springboard, soft version
- Standard board size in curved plywood
- Equipped with revolutionary Whisper Spring System
- Improved dynamic characteristics in the lower rebound area
- 5 conical tempered steel springs
- Surface made of 2,5cm special foam and hard-wearing needle felt
- Suitable for body weight between 40-75kg

**MINI SPRINGBOARD**  
10.14.00042

Specially developed for children from 3 to 8 years. It is supplied with transport wheels.  
Dimensions: 77x40x14cm (LxWxH)  
Weight: 9kg

**BEGINNERS SOFT SPRINGBOARD**  
10.14.00043

Classic springboard with two soft springs and a carpet. Ideal for beginners.  
Dimensions: 120x60x23cm (LxWxH).  
Weight: 22kg

**FOAM SPRINGBOARDS**

Light and reassuring, they are produced in hard foam with 1000 deniers PVC cover. Ideal for entry onto apparatus and vaults discovery.

**FOAM SPRINGBOARD**  
10.14.18044

Colours: blue and white  
Dimensions: 80x50x20cm (LxWxH)  
Weight: 4kg

**LARGE FOAM SPRINGBOARD**  
10.14.13045

Colours: pink and white  
Dimensions: 120x50x25cm (LxWxH)  
Weight: 5kg

**"XCEL" TRAMP BOARD**  
10.15.04009

- Halfway between a springboard and a mini trampoline
- Has been developed specifically for all learning and working skills of vaulting exercises
- Increases the power of a gymnast
- Same length as a standard springboard
- Easily transportable with built-in wheels
- Suitable for body weight up to 60kg

Two-tone modules constructed of polyurethane foam and a 1000 denier PVC cover with M2 fire rating. The modules have fully removable covers and 2 carrying handles for easy transportation and quick set up.

| Ref.        | Description                     | Dimensions (LxW) |
|-------------|---------------------------------|------------------|
| 10.19.04149 | Stabiliser for Ref. 10.19.18146 | 78x50cm          |
| 10.19.04150 | Stabiliser for Ref. 10.19.18147 | 95x70cm          |
| 10.19.04151 | Stabiliser for Ref. 10.19.18148 | 104x80cm         |

| Ref.        | Description  | Dimensions (LxØ) | Usage                         | Weight |
|-------------|--------------|------------------|-------------------------------|--------|
| 10.19.18146 | Mini model   | 78x50x65cm       | For gymnasts up to 1.30m tall | 7kg    |
| 10.19.18147 | Medium model | 100x70x87cm      | For gymnasts up to 1.60m tall | 16kg   |
| 10.19.18148 | Maxi model   | 116x80x99cm      | For gymnasts up to 1.60m tall | 23kg   |

**MEDIUM ROCKIN'GYM**

10.19.18147

With medium stabiliser 10.19.04150 as a combination.

10.19.18146

10.19.18147

10.19.18148

**STABILISERS**

With the use of the stabilisers(self-fixing strips), the Rockin'gym converts into a mini-vaulting table for teaching the basics of front giants. Anti slip-base.

10.19.04149

10.19.04150

10.19.04151

**WOOD WALL BARS**

Wall bars are great for dynamic, static or core exercises to strengthen muscles in the trunk and upper body.

**DOUBLE WOOD WALL BARS**

10.17.00008

- Securely fixed on the wall by expansion bolts
- The distance between the wood wall bars and the wall is 100 mm
- The overall dimensions of the equipment, 1800x2800x200 mm, solid wooden bar 38 mm, spacing between each layer is 290 mm, a total of 8 layers
- Height adjustable between 50-125 cm in 5 cm increments

**SINGLE WOOD WALL BARS**

10.17.00036

- Securely fixed on the wall by expansion bolts
- The distance between the wood wall bars and the wall is 100 mm
- The overall dimensions of the equipment, 950x2000x200 mm, solid wooden bar dia. 38 mm, spacing between each layer is 235 mm, a total of 7 layers

**GROUND ANCHORING**

- 10.18.00026 SIZE 95-130 mm
- 10.18.00027 SIZE 120-165 mm
- 10.18.00028 SIZE 150-230 mm
- 10.18.00029 SIZE 220-310 mm

**MAGNESIA HOLDER FOR FEET**

10.24.00582  
SIZE 50X50 CM

**MAGNESIA BLOCKS**

10.16.00203

Each pack contain 8 magnesia blocks, 36 packs per box. Total 288 magnesia blocks, total weight 20 kg

**MAGNESIA STAND**

10.16.00200

**CANNICE BALANCE BEAM (WA10)**

10.01.01001

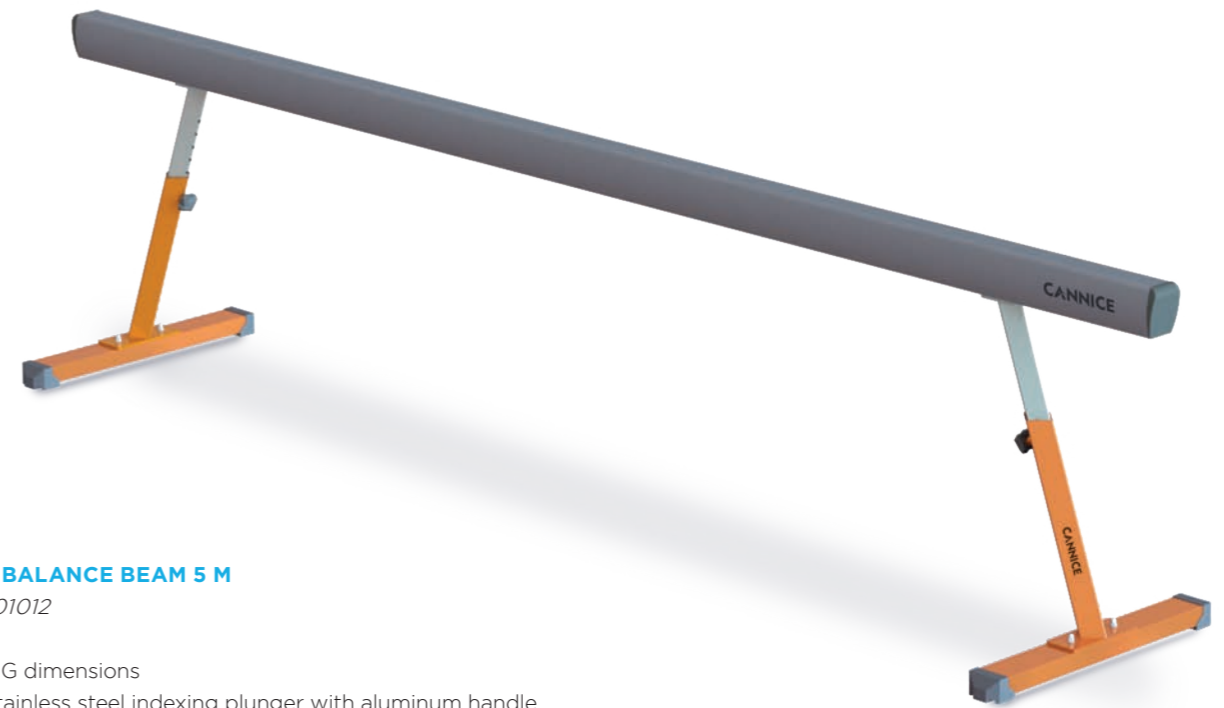

- FIG certified competition model
- A new shape of the aluminum profile let the balance beam appear optically wider
- Very stable steel legs with durable powder-coating
- Length 500cm
- Width beam surface 10cm
- Height adjustable between 50-125cm in 5cm increments

**TRAINING BALANCE BEAM**

10.01.00058

- A new shape of the aluminum profile let the balance beam appear optically wider
- Very stable steel legs with durable powder-coating
- Length 500cm
- Width beam surface 10cm
- Height adjustable between 50-125cm in 5cm increments

**CLUB BALANCE BEAM 5 M**

10.01.01012

- FIG dimensions
- Stainless steel indexing plunger with aluminum handle
- Height adjustment from 95 to 140 cm
- Legs in 2 parts for easy transport and storage

**CLUB BALANCE BEAM 3 M**

10.01.00025

**REMOVABLE BEAM COVER**

10.01.00018

- Practical way of extending the lifespan of your beam
- Cover attaches using hook-and-loop strips and PVC retaining rings allowing the tension to be adjusted as needed
- Cover is identical to a standard beam body with stretch fabric end caps
- Fresh look without the hassle and expense of other traditional recoveries
- Compatible with different brands of balance beams
- Easy to install

**CANNICE LOW BALANCE BEAM 3 M**  
10.01.00006

- Products specially developed for training
- The width of Low balance beam is 10cm, available in two lengths of 300 cm and 500 cm, the height of the legs are 20cm
- The beam is made of a soft rubber strip on the aluminum beam and the surface is covered with ultra-fiber leather.
- The legs are welded from high quality carbon steel pipes

**CANNICE LOW BALANCE BEAM 5 M**  
10.01.00005

**CANNICE LOW BALANCE BEAM 3 M (ROUND TUBE)**  
10.01.01013

- Products specially developed for training
- The width of Low balance beam is 10cm, available in two lengths of 300 cm and 500 cm, the height of the legs are 20cm
- The beam is made of a soft rubber strip on the aluminum beam and the surface is covered with ultra-fiber leather.
- The legs are welded from high quality carbon steel pipes

**CANNICE LOW BALANCE BEAM 5 M (ROUND TUBE)**  
10.01.01014

**CANNICE LOW BALANCE BEAM 3 M (BASE)**  
10.01.01015

- Products specially developed for training
- The width of Low balance beam is 10cm, available in two lengths of 300 cm and 500 cm, the height of the legs are 20cm
- The beam is made of a soft rubber strip on the aluminum beam and the surface is covered with ultra-fiber leather.
- The legs are welded from high quality carbon steel pipes

**CANNICE LOW BALANCE BEAM 5 M (BASE)**  
10.01.01016

**MULTI-PURPOSE MAT**  
10.19.00077

- Comprised of supple and shock absorbing foam
- Covered with soft elastic jersey
- Ideal for beam and bars training
- W100cmxL140cmxH2cm

**BEAM SURFACE EXPANDER**  
10.01.00017

- Can be used on the floor or on any beam meeting FIG specifications
- Essential training tool for every gymnastics program
- Two expanders equal length of competition beam
- W20cmxL250cm

**FOAM LEARNING BEAM**  
10.01.00011

- Comfortable and stable
- Two beams can be linked to each other by hook and loop fasteners
- Includes anti-skid vinyl bottom
- 15cmx24cmx250x10cm

**CANNICE UNEVEN BARS (WA16)**  
10.12.01001

- FIG certified
- Veneered fiberglass rails
- Double tensioning system with sliders
- High rail adjusts from 240 to 280cm in 5cm increments
- Low rail adjusts from 160 to 200cm in 5cm increments
- Width diagonal adjusts from 130 to 180cm
- Width adjuster includes competition markings

**QUICK TENSIONER**  
10.24.00301

**CLUB UNEVEN BARS WITH STANDARD CABLE (INCL. TRAINING RAIL 20.03.00075)**  
10.12.00020

**CLUB FREESTANDING UNEVEN BARS**  
10.12.01007

- High stability construction
- Stainless steel indexing plunger with aluminum handle
- Easy height adjustment with deported handle
- Fiber glass handrail covered with wood veneer
- High bar height adjustment from 230 to 280 cm
- Low bar height adjustment from 150 to 195 cm
- Easy width adjustment with aluminum handles from 130 to 180 cm

**COMPACT FREESTANDING UNEVEN BARS WITH WHEELS**  
10.12.00021

- High stability construction
- Stainless steel indexing plunger with aluminum handle
- Easy height adjustment with deported handle
- Fiberglass handrail covered with wood veneer
- High bar height adjustment from 215 to 245 cm
- Compatible with Men's bar hand rail
- Low bar height adjustment from 140 to 170 cm
- Easy width adjustment with aluminum handles from 60 to 140 cm
- Includes built-in transport system

**CLUB FREESTANDING UNEVEN BARS  
(FOLDABLE BASE WITH WHEEL)**

10.12.01008

- Free standing uneven bars with foldable base
- High stability construction
- Stainless steel indexing plunger with aluminum handle
- Easy height adjustment with deported handle
- Fiber glass handrail covered with wood veneer
- High bar height adjustment from 220 to 270cm (in 5cm increment)
- Low bar height adjustment from 150 to 195cm (in 5cm increment)
- Easy width adjustment with aluminum handles from 130 to 180cm
- Includes built-in transport system

**COACH PLATFORM**

10.16.00021

- For training with horizontal bars and uneven bars
- Equipped with a ladder and two standing planes, one high and one low, which is convenient to use
- The surface is made of 2.5 cm special foam and wear-resistant needle felt
- Easy height adjustment from 137 to 197cm in 10cm increments
- Wide base and easy leveling footpads provides stability, high-strength positioning and locking structure

**CANNICE HIGH BAR (WA15)**

10.02.00003

- FIG-certified
- Includes two rotation axis rail heads designed to provide a perfectly jolt free "gimbal" effect
- Easy to assemble and dismantle via load binders
- Height adjusts from 275cm to 315cm
- Anti-slip footpad

**CANNICE PARALLEL BARS (WA14)**

10.03.01001

- Stable in all directions
- Pre-tensioned high frequency glued wood rails with fiberglass inserts provide optimal resilience and equal elasticity
- Height adjustment from 165cm to 210cm in 5cm increments
- Width adjustment from 41cm to 67cm continuously

**CANNICE PARALLEL BARS WITH TRANSPORT WHEELS**

10.03.00043

**CLUB PARALLEL BARS**

10.03.00044

- Stable in all directions
- The bar surface is made of high-quality fiberglass reinforced wrapped with wood leaf paper
- Height adjustment from 165cm to 210cm in 5cm increments
- Width adjustment from 41cm to 67cm continuously

**CANNICE PARALLEL BARS WITH TRANSPORT WHEELS**

10.03.00045

**TRAINING PARALLEL BARS**

10.03.01034

- Made of high-quality carbon steel
- The bar surface is made of high-quality fiberglass reinforced wrapped with wood leaf paper
- Height adjustment from 140cm to 170cm in 5cm increments width adjustment from 39cm to 65.4cm continuously
- Equipped with quick adjustment mechanism, convenient adjustment

**TRAINING PARALLEL BARS WITH TRANSPORT WHEELS**

10.03.00046

**LOW PARALLEL BARS**

10.03.01035

- Made of high-quality carbon steel, and the base is made of high-quality multi-layer plywood and non-slip base
- The lever surface is made of high-quality glass fiber reinforced plastic lever surface wrapped with wood leaf paper, and high-quality fastened carbon steel pipes are built in the connection part of the lever surface and the column to increase the firmness.
- Height is 400mm

**MOUNTING BLOCKS HALF SIZE W60XL90XH23CM**  
10.16.00037

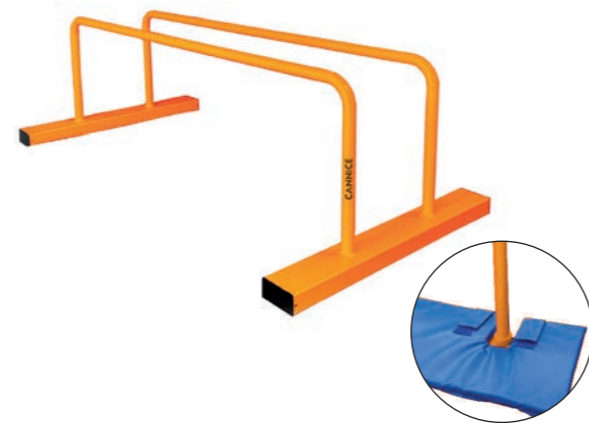

**MOUNTING BLOCKS FULL SIZE W60XL120XH23CM**  
10.16.00038

- Light weight and excellent tool for teaching approach technique
- Firm, stable and ideal for mounts on beam and uneven bars
- New anti-slip material

**GROUND PARALLEL BARS**  
10.03.00007/8/9

- Specially developed for gymnastics training
- Fixed base, small size, easy to move
- Length, height can be customized according to demand, flexible and convenient
- Bottom equipped with non-slip mats, safe and stable
- Bar rail made of high-quality carbon steel pipe with a diameter of 38mm and a thickness of 3mm, surface and the base are welded
- Overall size: L190cmxW100cmxH40cm/50cm/60cm

**FOAM PARALLEL BAR TRAINER**  
10.16.00005

- Beginner tool for the development of competition parallel bars
- Yellow portion indicates rail area
- Each block is W60cmxL120cmxH120cm

**ADJUSTABLE SINGLE BAR TRAINER INCL. MEN'S RAIL**  
10.16.00019

**ADJUSTABLE SINGLE BAR TRAINER INCL. FIBER VENEERED RAIL**  
10.16.00020

- Specifically developed for gymnastics training
- Equipped with fast tightening device and quick release
- With scale identification, large adjustable range: 60cm-280cm, suitable for all ages training requirements
- Bottom equipped with non-slip mats, safe and stable
- Bar Rail uses ø2,8cm high quality elastic steel, adjustment sleeve is integrally provided with a locking handle, firmly locked and easy to adjust.
- Equipped with 4 drawstrings for fixing and the embedded parts firmly. The rope is equipped with a fast tightening rope for quick adjustment and tension
- Anchoring point is safe and beautiful with the hidden embedded method. The size of the ground anchoring point is 550cmx400cm

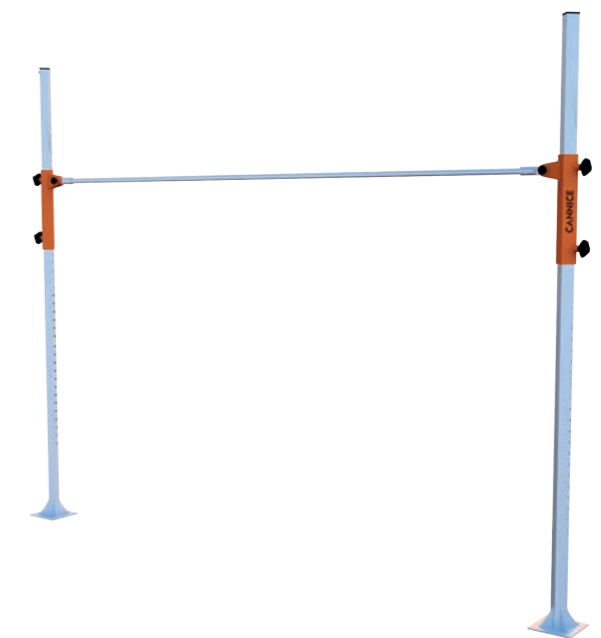

**METHODICAL TRAINING BAR WITH MEN'S STEEL RAIL 2,5M**  
10.16.00022

**METHODICAL TRAINING BAR WITH MEN'S STEEL RAIL 1,8M**  
10.16.01022

**METHODICAL TRAINING BAR WITH FIBER VENEERED RAIL 2,5M**  
10.16.00023

**METHODICAL TRAINING BAR WITH FIBER VENEERED RAIL 1,8M**  
10.16.01023

- Minimal floor space required
- Ideal for tight areas - no cables required
- Quick and easy height adjustment
- Rail adjusts from 40cm to 190cm in 7cm increments

**POLARIS QUAD BAR WITH 1,8 METER RAILS**  
10.16.00265

**POLARIS QUAD BAR WITH 2,5 METER RAILS**  
10.16.00025

**POLARIS QUAD BAR WITH 1,8 METER RAILS (INCLUDED MATS)**  
10.16.00027

**MAT SET FOR POLARIS 1,8M**  
10.19.00831

**MAT SET FOR POLARIS 2,5M**  
10.19.01831

- Ideal for training and learning
- Bases are anchored to the floor - no cables are required
- Rails adjust from 20cm to 170cm in 2cm increments
- Available with 180cm and 240cm rails
- Mat systems are available for both lengths

**SPOTTING BLOCKS LONG W60XL150XH50CM**  
10.16.00035

**SPOTTING BLOCKS SHORT W60XL70XH50CM**  
10.16.00036

- Extremely firm and stable surface for spotter movement
- Includes handles to facilitate transportation around the gym

**MULTI-FUNCTION STACKING BLOCK**  
10.19.00183

Dimension:

- 1: 120X60X20 cm
- 2: 60X60X20 cm
- 3: 40X60X20 cm

25 density foam inside the outside is PVC artificial leather. The modules have a rectangular shape in different height combination, and are very suitable for introducing young children into the gymnastics.

**PIROUETTE BARS, WALL BRACKET**  
10.16.00016

For wide and Portable Pirouette Bars (set of 2). Used to hold the pirouette bar or as a wall bar for conditioning.

**PIROUETTE BARS WIDE**  
10.16.00017

Fits over a 230cm wide mat (mat sold separately). Bar is made with competition uneven bar rail.

**PORTABLE PIROUETTE BAR**  
10.16.00018

Convenient tool to add a station for bar training. Bar is made with veneered fiberglass rail. L110cmxH24cm

**SHORT WOODEN INVERTED STAND**  
10.17.00001

- Specially developed for training;
- High-quality ash wood
- Overall dimensions: L40cmxW23cmxH14,5cm

**LONG WOODEN INVERTED STAND**  
10.17.00002

Overall dimensions: L90cmxH23cmxW14,5cm

**GROUND HORIZONTAL BAR, INCL. STEEL RAIL**

10.02.00008

**GROUND HORIZONTAL BAR, INCL. FIBERGLASS RAIL**

10.02.00011

- Products specially developed for training
- Split design, small size, easy to move
- Rail diameter is 2,8cm, ground height up to 27cm, center distance between two columns is 240cm, round base plate diameter is 32cm
- Overall frame is made of high-quality carbon steel, strong and durable
- Overall dimensions: L272cmxW32cmxH27cm

**NATURAL FIBER COMPETITION RAIL (PATENTED)**

10.16.00028

**REPLACEMENT RAIL FOR CANNICE COMPETITION UNEVEN BARS**

10.16.00031

**NATURAL FIBER TRAINING RAIL (PATENTED)**

10.16.00029

**REPLACEMENT MEN'S RAIL FOR CANNICE HIGH BAR**

10.16.00033

**REPLACEMENT VENEERED FIBERGLASS RAIL FOR CANNICE TRAINING UNEVEN BARS**

20.03.00075

**CANNICE POMMEL HORSE**

10.05.01001

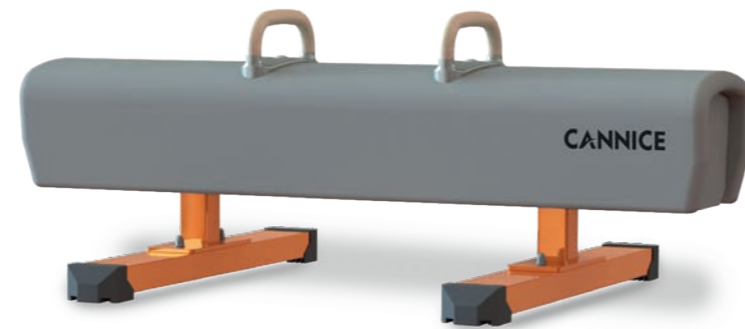

- FIG certified top competition pommel horse
- Stable body upholstered with top quality cowhide leather
- Equipped with two aluminum pommels covered in hygroscopic non-slip rubber
- Includes built-in transport system
- Includes tie-down chain with turnbuckle for floor anchoring
- Height adjusts from 100cm to 135cm in 5cm increments

**CLUB POMMEL HORSE**

10.05.01006

- Same body as competition line
- Legs in 2 parts for easy transport and storage
- Pommel Horse height is 50 cm, suitable for landing mats 20cm thickness

**CANNICE TRAINING POMMEL HORSE**

10.05.00018

- Same body as FIG Pommel Horse 10.05.01001
- Stable body upholstered with top quality cowhide leather
- Two aluminum pommels covered in hygroscopic non-slip rubber
- Legs height is 50 cm, suitable for landing mats 20cm thickness
- Legs in 2 parts for easy transport and storage

**CANNICE TRAINING POMMEL HORSE DELUX**

10.05.00019

- Products specially developed for training
- Same body as FIG Pommel Horse 10.05.01001
- Stable body upholstered with top quality cowhide leather
- Equipped with two aluminum pommels covered in hygroscopic non-slip rubber
- Includes tie-down chain with turnbuckle for floor anchoring
- Height adjusts from 945mm to 1345mm in 5cm increments
- With a convenient caster transportation system, it is easy to operate and easy to move

**SHORT POMMEL HORSE**

10.05.01018

- Covered with leatherette, designed for training and school environment
- Height adjustment from 94 to 134 cm with 5 cm increments
- Body dimensions: 60 x 35 x 28 cm (LxWxH)
- With anti-sliding rubber feet

**SHORT POMMEL HORSE DELUX**

10.05.00020

Incl. transport wheels

**SMALL POMMEL HORSE**

10.10.00002

- Fixed base, equipped with quick adjustment mechanism, convenient adjustment, adjustable height 80-110cm optional
- Equipped with a bottom anti-slip mat and a safety base, which is safe and stable
- Pommel head dimension: 50x35x28cm

**ROTABLE POMMEL HORSE**

10.10.00001

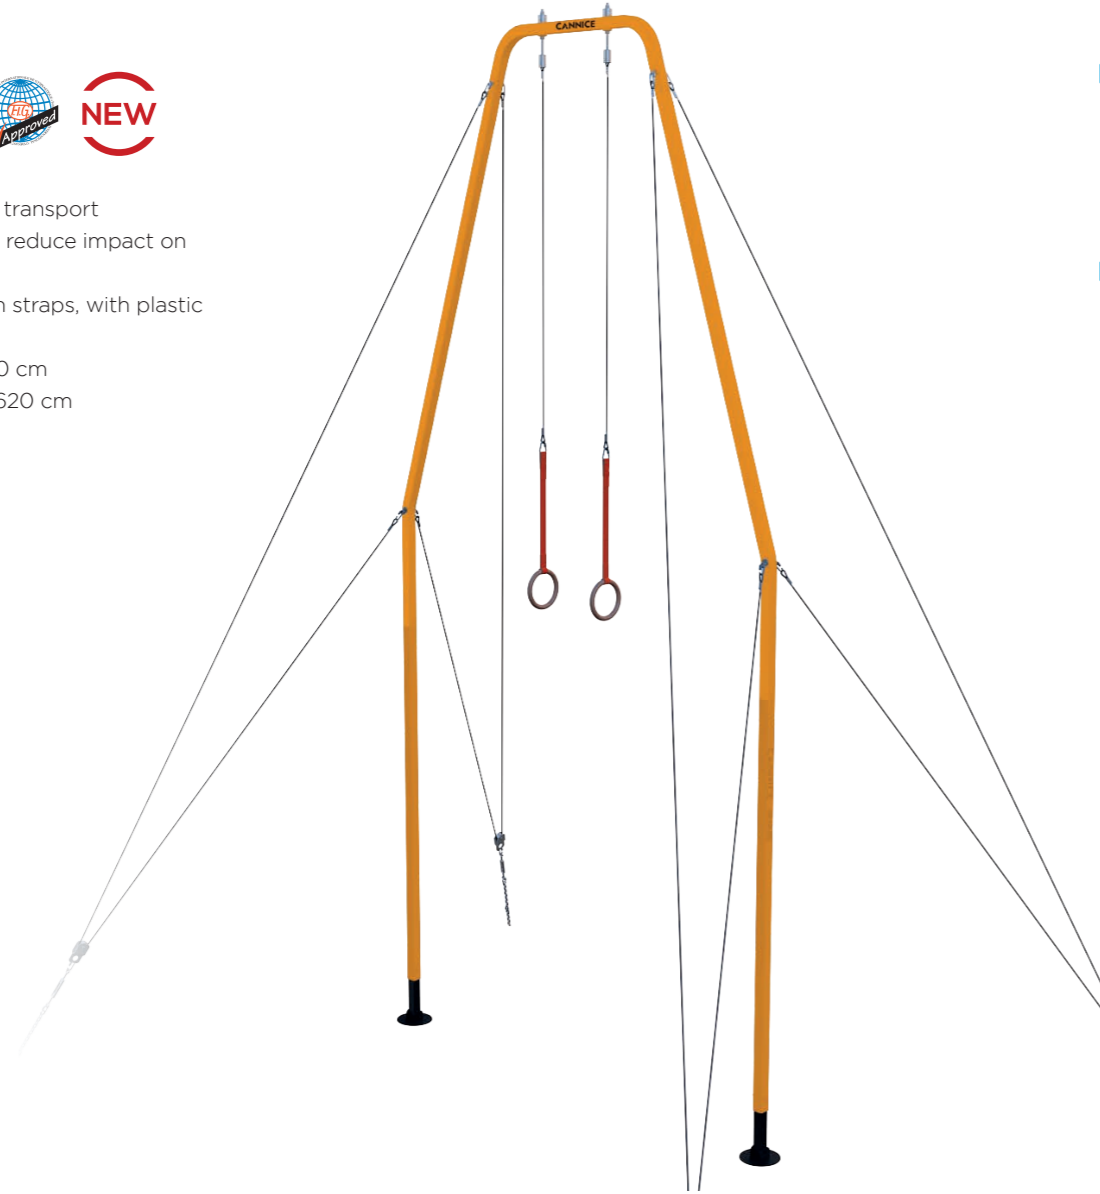

- Fixed base, anti-slip mat on the bottom of the equipment, safe and stable
- Middle part is equipped with a rotating sleeve, can be rotated
- Overall dimension: 190x75cm
- Pommel horse head diameter is ø62.5mm, height is 18cm, surface is covered with a layer of microfiber leather, smooth and solid

## CANNICE RING FRAME (WA12)

10.11.01001

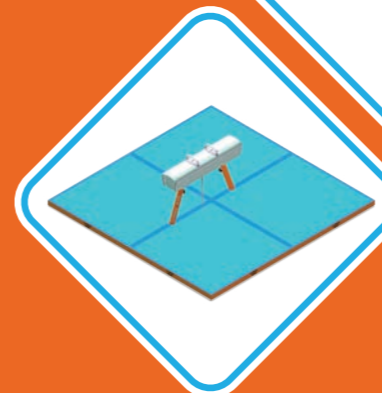

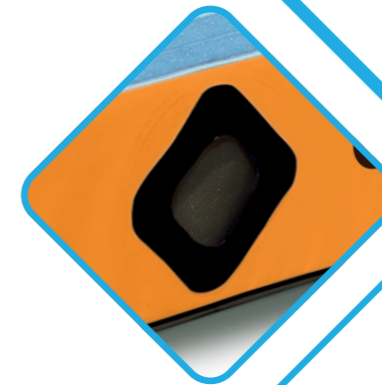

- Light weight, easy to assemble and transport
- Includes rubber shock absorbers to reduce impact on athletes' shoulders and back
- Plywood rings attach to non-stretch straps, with plastic en cased aircraft grade cables.
- Height adjustable between 260-300 cm
- Minimum ceiling height required is 620 cm

## REPLACEMENT RINGS FOR CANNICE RINGFRAME

20.11.00006

- Includes a pair of cables and heavy duty nylon straps with plywood rings

# MATS

High-quality PVC coated polyester fabric that meets European REACH safety standards

- High-quality PVC-coated polyester fabric, good flexibility, strong tensile strength, tear strength and adhesion strength
- Strong resistance to high and low temperature
- Safety grade M2 flame retardant, waterproof, moisture-proof
- Phthalate-free and meet European REACH safety standards

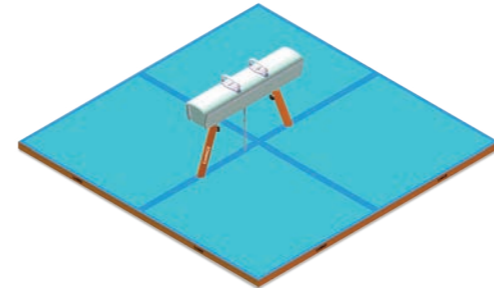

**POMMEL HORSE MAT SET**

10.19.01003

400x400x10cm configuration, includes:

- 10.19.02031
- 10.19.02032

**RING MAT SET**

10.19.01004

500x200x20cm configuration, includes:

- 10.19.02023
- 10.19.02020

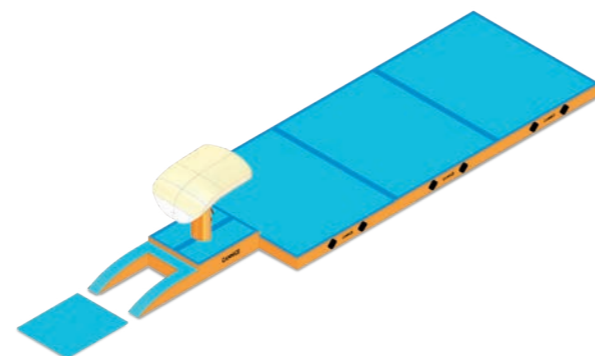

**VAULT MAT SET**

10.19.01005

600x250x20cm configuration, includes:

- 10.19.02021
- 10.19.02037
- 10.19.02036
- 10.19.02035

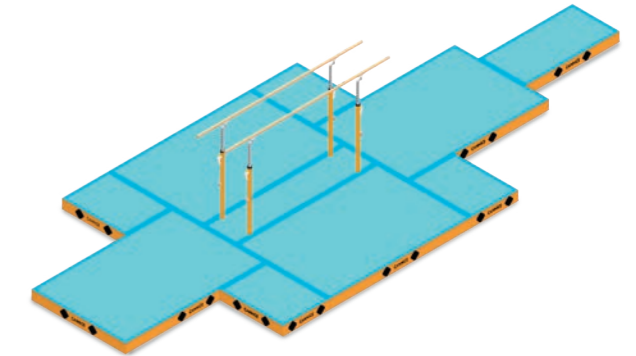

**PARALLEL BAR MAT SET**

10.19.01002

1100x470x20cm configuration, includes:

- 10.19.02020
- 10.19.02024
- 10.19.02026
- 10.19.02023
- 10.19.02027
- 10.19.02028
- 10.19.02029

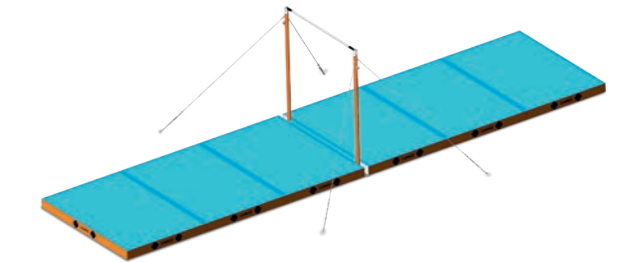

**HORIZONTAL BAR MAT SET**

10.19.01001

1210x300x20cm configuration,

- 10.19.02020
- 10.19.02025

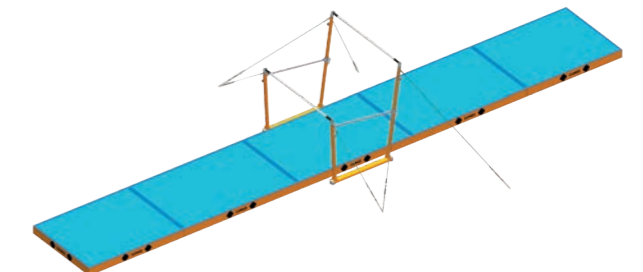

**UNEVEN BARS MAT SET**

10.19.01007

1400x200x20cm configuration, includes:

- 10.19.02020
- 10.19.02021

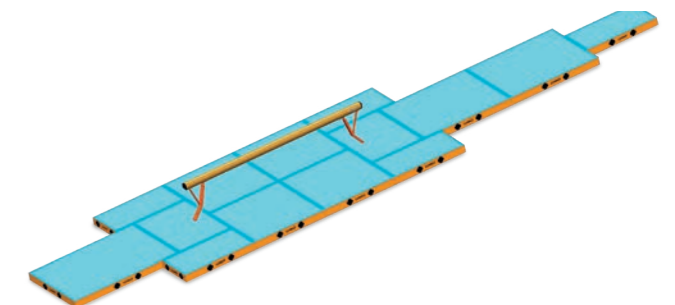

**BALANCE BEAM MAT SET**

10.19.01006

1600x400x20cm configuration, includes:

- 10.19.02020
- 10.19.02022
- 10.19.02023
- 10.19.02030
- 10.19.02021

# FLOORS

**CANNICE ARTISTIC FLOOR**

10.09.01001

- 14mx14m surface 20 cm height
- 2304 black coated steel springs
- 72 birch plywood 12 mm boards assembled with H profiles and key locking system
- First foam layer made of 2m x 1m puzzle PE foam
- Top layer made of high durability needle felt flamed on soft PE foam for higher comfort

**CLUB ARTISTIC GYMNASTICS FLOOR**

10.09.00130

**TRANSPORT CART FOR ARTISTIC FLOOR**

10.16.01013

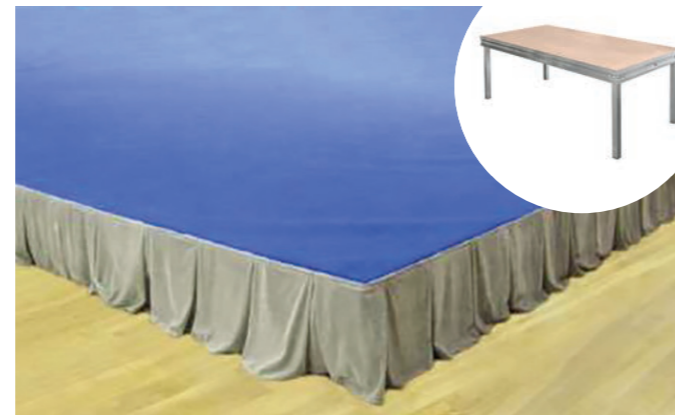

### CANNICE AEROBIC GYMNASTICS FLOOR

10.09.00003

- FIG standard, can be used for official competition or training
- Surface free of cover and easy install by only a layer of field
- Site has uniform elasticity, no noise during use, and anti-static treatment.
- Site overall dimension is 12X12m, height is 7,6cm. Competition area size is 10X10m, regular line width is 5cm, and regular diagonal line length is 1414cm.

### CANNICE COMPETITION PODIUM

10.13.00001

- Removable legs (aluminium 50mm x 50mm) with plastic pads
- Size: 2m x 1m or 1m x 1m
- Working Heights: from 12cm to 100cm
- Thickness (without any legs): 12cm
- Weight: 44kg (standard weight: table with four legs one meter long)
- 2m x 1m platforms made of 18mm-thick plywood with a frame made of aluminium rails with double grooving for linking adjacent units including various accessories such as railings, stairways ... and this system allows the compatibility with various other models of the market.

### CANNICE RHYTHMIC GYMNASTICS FLOOR

10.09.00002

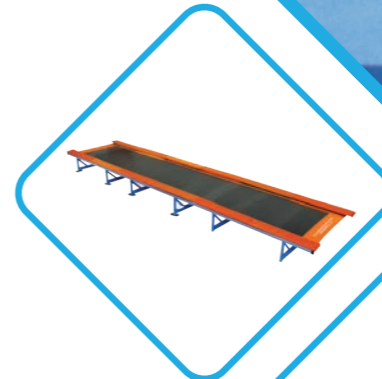

- NSCC national certification, ideal for competition and training
- Great wear resistance brushed carpet site surface
- Sponge feet use EV50 foam, provide excellent cushioning force
- The site has uniform elasticity, no noise during use, and anti-static treatment.
- Cover carpet overall dimension is 16x16m,height is 6,6cm, Venue competition area is 13x13 m, regular line width is 5cm, diagonal length is 1838,5cm.

### CARPET BONDED FLOOR ROLLS

10.16.00040

- Made with high performance polyethylene sports foam, flame-laminated to high quality carpet
- W200cmxL1200cm available in 3cm thickness
- Available in standard cut or flex-cut rolls
- Each roll includes one 4" roll of hook fastener (one per seam)
- Contact your Dealer or Sales Rep. for custom sized rolls

# TUMBLING

**CANNICE TUMBLING TRACK**

10.15.00017

World class materials provide highest elasticity and reduce the arising strength peaks in the best possible way. Particularly suited as a tumble strip for training centers. Other lengths are available upon request.

- Solid steel frame with fiberglass rods and plastic adapters for better pressure distribution, consisting of 21 elements of 121cmx200cm each
- Covered with multi-layer, overlapping floor exercise mat "TRIFLEX®" with integrated grid material providing additional protection and durability of the mat
- Total length is 2541cm

**TRAMPOLINE 20 & 18 METERS LONG**

10.06.00007 20 m

10.06.00008 18 m

- Both for training and competition
- The overall frame structure is safe and secure
- Imported high-elastic jumping bed, the overall size is 20 meters or 18 meters
- The width is 2m and the height is 65cm

**AIR PRODUCTS**

Comfortable training for jumps, floor exercises, uneven bars, parallel bars and other skills

- Inflates rapidly, with adjustable pressure level
- Easier on joints, to increase practice time
- For beginners and top gymnasts
- Lines are clear to both gymnast and trainer for correction purposes

**AIRTRACK**

- 100% flat and lighter Airtrack. Excellent rebound!
- Rapidly inflated, with adjustable hardness, virtually airtight and silent
- Height options from 10 cm to 30 cm, perfectly meet your needs
- including 1 x air blower, 1 pressure gauge and repair kit

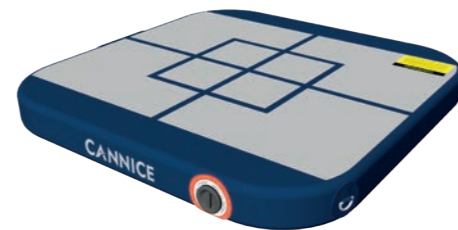

|             |             |
|-------------|-------------|
| 10.20.01001 | 10X2X0.1 M  |
| 10.20.01002 | 10X2X0.2 M  |

## MINI AIR BLOWER FOR AIR TRACKS

10.20.00015

It is recommended to use two Mini Blowers for one Air Track. Light-weight easy to transport, rapid inflation and deflation at 250 mBar maximum pressure with maximum flow-rate of 2000 L/min; weighs 3,75 lbs.

## MINI AIR BLOWER FOR AIRMAT PRODUCTS

10.20.00016

Compact blower for air products. Light-weight easy to transport, rapid inflation and deflation at 250 mBar maximum pressure with maximum flow-rate of 1700 l/min; weighs 3,75 lbs. Fitted with a thermal cut-out and the adapter for the air products is included.

## AIRMAT/AIRFLOOR PRESSURE GAUGE

10.20.00042

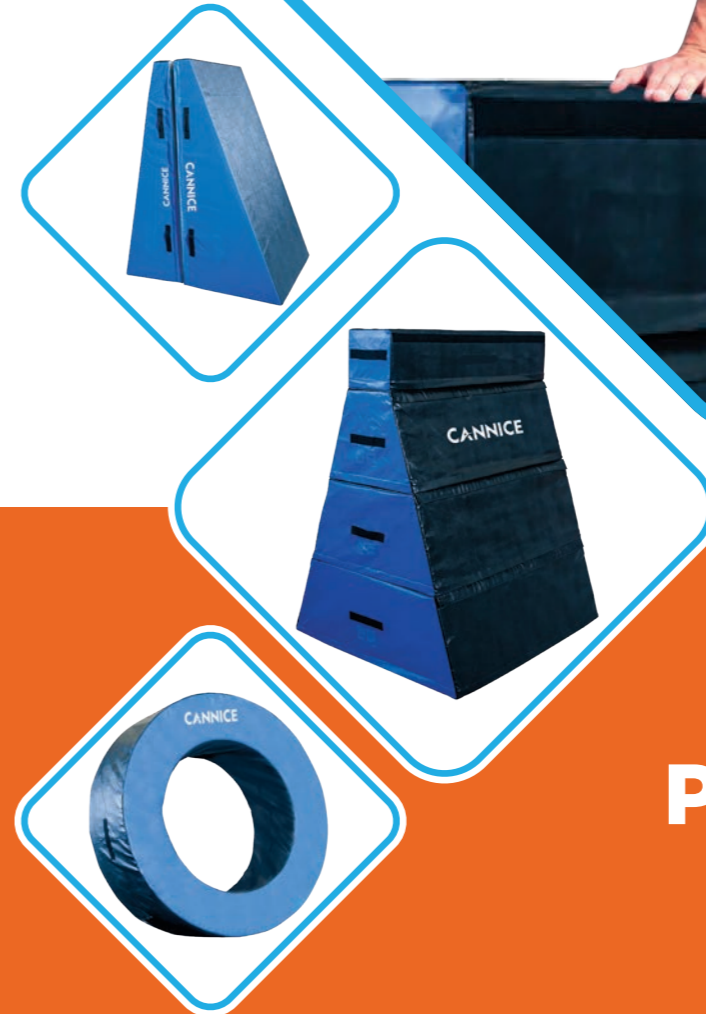

Clear display of air pressure. Comes with a storage bag.

## CONNECTION KIT AIR PRODUCTS

30.09.00030

- To connect 2 air products
- Velcro stripes, covered with PVC
- 2 stripes of 85x23 cm and 1 stripe of 180x23 cm
- 2 connecting straps (length 200cm) for e.g. fixing the Airboard to a springboard or Vaulting Table

# PARKOUR

**PARKOUR COURSE**

Parkour and Free running are rapidly growing in popularity. Now a FIG recognized sport involves overcoming urban and environmental obstacles.

Cannice has created the Parkour Training Line, a specific range that focuses on recreating obstacles for the non-competitive disciplines with emphasis on creativity and self expression. Each module has been carefully designed in collaboration with several organizations to ensure the fundamentals of the discipline.

Each Module features:

- High quality foam filler, reinforced with polyethylene foam for optimal stability
- Heavy duty vinyl and carrying handles
- Anti-skid bottom
- Hook & loop fasteners to secure modules together

**HAPPY GYM**

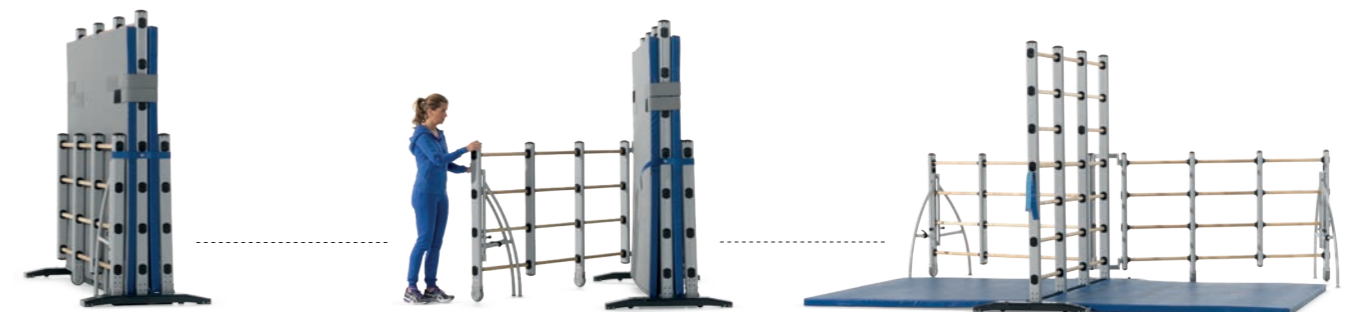

**WHY, HAPPY GYM?**

The "Happy Gym" system enables children to:

- Experience new movements
- Develop the sense of balance and perception of their body
- Increase physical activity by playing
- Advance conditional and coordination capabilities
- Get self-confidence due to readiness for risk
- Put own playing idea into practice by variation of modules

**CLIMBING ISLAND**

**CLIMBING ISLAND**

10.98.00189

- Easy and compact storage
- Mobile
- Can be folded out stably
- Including 2 foldable mats

3 wings, each comprising 3 sections with a width of 59cm.

- 1 main frame, 216cm high
- 2 side wings, 125cm high
- Folded 216x96x227cm

**CLIMBING ISLAND MAT (SET OF 2)**

20.02.00109

**HAPPY GYM FOCUSES ON CHILDREN**

Thanks to the variety of equipment and flexible set-up, each child will find a challenge at their own level. They can have fun while discovering their possibilities and push their boundaries. All modules can be easily and quickly adjusted and varied in different ways, so that versatile creative exercise areas can be built up.

COMBIFRAMES

**WOODEN DECK BOARDS**

Multiplex boards with rubber connecting pieces for attachment to the combiframes. Highly suitable to build vaulting boxes.

**FOR SHORT FRAMES 63X63CM**

10.14.00013

**FOR LONG FRAMES 136X63CM**

10.14.00014

**VAULT DECKS**

Covered multiplex boards with a filling that maintains its spring effect, fitted with rubber connecting pieces for attachment to the combiframes. Highly suitable to build vaulting boxes.

**FOR SHORT FRAMES 63X63CM**

10.14.00015

**FOR LONG FRAMES 136X63CM**

10.14.00016

**4-IN-1 COMBIFRAME**

10.14.00012

The set consists of 2 conically positioned steel frames, a round birch top deck and 7 connectable mats. The mats fit into the 4-in-1 combiframe and can be stored inside the frames in a compact manner. The frames are 42cm high and the width varies from 57 to 90cm. Fitted with rubber pieces for stacking and velcro strips. The stacked height is approx. 85cm. Can be used together with other Cannice combiframes. Per set.

COMBIFRAMES

The combiframes are made of strong, thin-walled metal tubes  $\varnothing$  35mm which maintain their shape even with rough use. Everywhere on the frame equipment such as bench tops, ladders, slides, etc. can be attached. At the bottom, the frames have profiled rubber feet which allow for a very stable set-up or stacking and serve as floor protection at the same time. The frames are firmly connected to each other by means of velcro strips.

**COMBIFRAME LOW/LONG**

10.14.00031

Length 130cm, width 57cm, height 44cm. Weight 13kg.

**COMBIFRAME LOW/SHORT**

10.14.00032

Length 57cm, width 57cm, height 44cm. Weight 6kg.

**COMBIFRAME PYRAMIDAL**

10.14.00033

Length 130cm, width 80/57cm, height 74cm. Weight 18kg.

**EXERCISE FRAME**

10.14.00030

Exercise frame that can be used on three sides with floor protection, Height-adjustable at 30, 35 and 40cm.

ACCESSORIES

**BALANCE BEAM**  
10.14.00017

Equipped with connecting pieces to connect the beam firmly to a combiframe. One convex and one flat side, 300cm long.

**FLEXIBLE PLANK**  
10.14.00019

Strong spring effect. With attachment bracket and clamps. 300cm long and 24cm wide.

**SOMERSAULT BAR, WOOD**  
10.14.00021

Including leather-upholstered hanging books with a safe clamp fastening system. Length 150cm, ø4cm.

**WOODEN LADDER, WIDE MODEL**  
10.14.00020

To attach climbing frames With 8 rungs, 68cm wide and 300cm long.

**SOMERSAULT BAR, METAL**  
10.14.00022

Length 190cm, ø4cm. Including leather-upholstered hanging hooks with a safe clamp fastening system.

ACCESSORIES

**ZIGZAG WOODEN LADDER**  
10.14.00024

Stable rail with 16rungs. Length 300cm, width 36cm.

**WOODEN LADDER, NARROW MODEL**  
10.14.00018

With 10 rungs, 44cm wide and 300cm long.

**SLIDE**  
10.14.00026

With raised edges, 250cm long. The sliding surface is 34cm wide.

**CHICKEN LADDER, WOOD**  
10.14.00027

With 10 steps. Length 300 cm, width 24 cm.

**BENCH TOP**  
10.14.00025

Self-clamping clamps in the middle and at the ends. Can be used as a plank, bench, seesaw, etc. 300cm long, 24cm wide and 3cm thick.

**STORAGE BRACKET FOR EQUIPMENT**  
10.40.0028

To hang up at least 4 and up to 8 pieces of equipment, depending on their respective width (hall height >3.25m).

4IN1 HAPPY GYM APPARATUS

10.14.00001

Protection landing mats can be ordered separately

HAPPY GYM UNEVEN BARS

10.14.00004

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Position on the base fully adjustable. Total length 150 cm
- Rails height adjustable between 90 and 150 cm
- Upper rail : in 5 cm increment between 120-150cm
- Lower rail : in 5 cm increment between 90-120cm
- Fiber glass handrail covered with wood veneer

HAPPY GYM PARALLEL BARS

10.14.00035

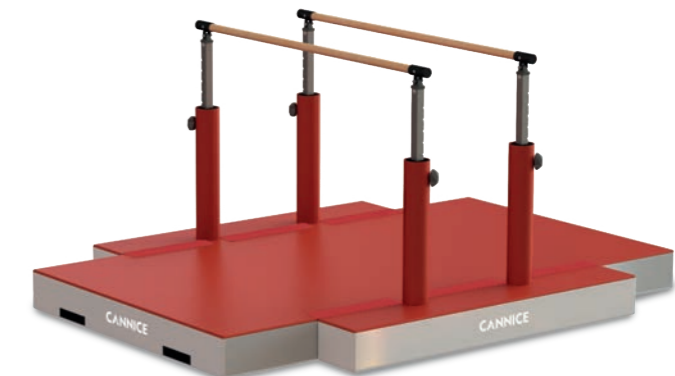

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Position on the base fully adjustable. Total length 150 cm
- Bar height adjustable between 90 and 150 cm
- Fiber glass handrail covered with wood veneer

Protection landing mats can be ordered separately

Protection landing mats can be ordered separately

**HAPPY GYM FLEXI BARS**

10.14.00034

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Width between the bars fully adjustable. Base length 150 cm
- Elastics height adjustable between 145 and 85 cm
- Bar height adjustable between 45 and 40 cm

Protection landing mats can be ordered separately

**HAPPY GYM HIGH BAR**

10.14.00002

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Position on the base fully adjustable. Total length 150 cm
- Bar height adjustable between 90 and 150 cm
- Fiber glass handrail covered with wood veneer

Protection landing mats can be ordered separately

Protection landing mats can be ordered separately

**HAPPY GYM RINGS**

10.14.00003

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Position on the base fully adjustable. Total length 150 cm
- Rings height adjustable between 120 and 150 cm
- Plywood rings

**TRAPEZE**

10.14.00038

A trapeze which can be used instead of the rings

**HAPPY GYM HIGH HIGH BAR**

10.14.00066

- Stainless steel indexing plunger with aluminum handle
- Heavy duty casting base with aluminum handle
- Position on the base fully adjustable. Total length 150 cm
- Bar height adjustable between 160 and 180 cm
- Fiber glass handrail covered with wood veneer

Protection landing mats can be ordered separately

**MONKEY BARS**

10.14.00005

- Happy Gym additional equipment
- Fits on a High bar. 2 monkey bar units can fit on one single high bar
- Stainless steel indexing plunger with aluminum handle
- Easy width adjustment with aluminum handles from 130 to 180 cm
- Heavy duty steel construction

**SLIDE**

10.14.00037

A slide which can be placed on a Happy Gym high bar

**CLIMBING NET**

10.14.00036

A climbing net for Happy Gym rings

**HAPPY GYM STANDARD MAT**

10.19.06284

Dimension: 266 x 150 x 18 cm  
High density foam inside with PU leather cover, with two air-bleed holes

**SPONGE POOL**

10.19.00195

Dimension: 300x200x75cm 3 m3 color foam blocks, size: 15x15x30cm, density 22kg

**CLIMBING BOARD**

10.14.00008

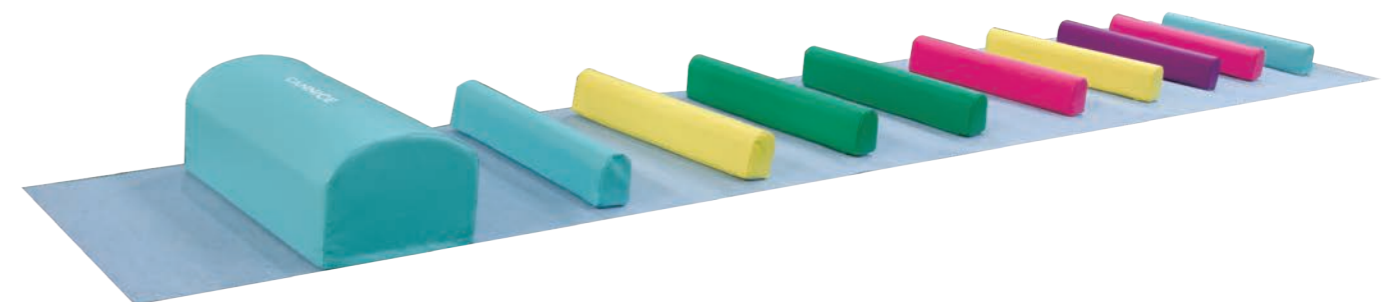

A wood made climbing board with real climbing holds, made for the Happy Gym high bar

**RUN-JUMP COMBINATION**

10.19.00142

Total length is 635cm, which is composed of 1 bottom sheet, 1 jumper pad and 10 jumping bars, and the colors are varied. The bottom sheet is a double-layer PVC, size of 70x120x635cm; jumper pad is 80x40x30cm. With 25 times hard sponge. Jumping bars contain 10 different colors of PVC, the size is 80x10x15cm inside with hard foam. The upper end is circular arc, the lower end has hard velcro buckle bar which can be glued to the bottom.

**ADVANCED TRAMPOLINE**  
10.14.00051

3.66 m in diameter and 0.68 m above the ground

The use of 1.4mm thickness high quality steel pipe, waist drum spring rust resistance durable elastic, high quality pp mesh cloth wear-resistant mesh cloth for 10 years without deformation, blue pvc material outer cover

**CHILDREN'S FREE EXERCISE FLOOR**  
10.19.00187

The width of each strip is 2 m and thickness is 3 cm.  
Length base on actual  
Carpet light blue laminated XPE

**MULTI-FUNCTION STACKING BLOCK**  
10.19.00183

Dimension:

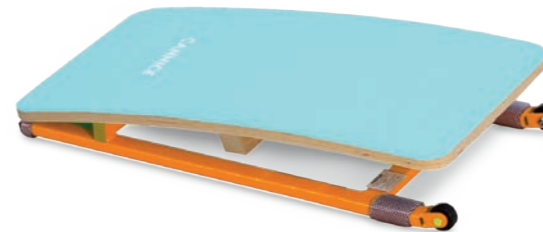

- 1: 120X60X20 cm
- 2: 60X60X20 cm
- 3: 40X60X20 cm

25 density foam inside the outside is PVC artificial leather. The modules have a rectangular shape in different height combination, and are very suitable for introducing young children into the gymnastics.

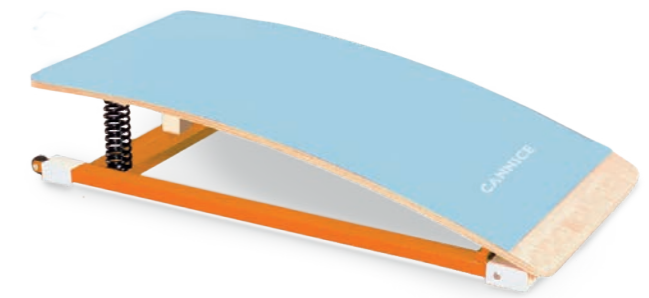

**NUMBER BLOCK (12 PC/SET)**  
10.19.00192

High density foam inside the outside is pvc artificial leather. The surface text is printed by thermal transfer printing, the font is clear and firm. Multiple colors match to promote children's visual development. Combination of various ways to develop children's intelligence. Dimension: 25x25x25cm

**MINI SPRINGBOARD**  
10.14.00042

Specialy developed for children from 3 to 8 years. It is supplied with transport wheels. Dimensions: 77x40x14cm (LxWxH) Weight: 9kg

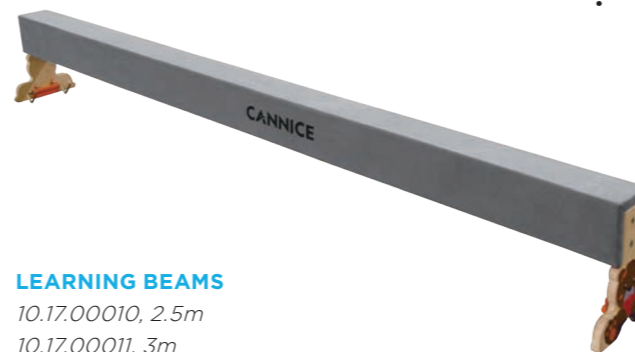

**BEGINNERS SOFT SPRINGBOARD**  
10.14.00043

Classic springboard with two soft springs and a carpet. Ideal for beginners. Dimensions: 120x60x23cm (LxWxH). Weight: 22kg

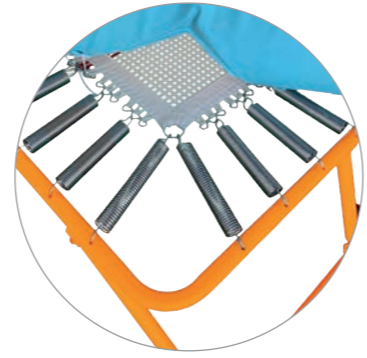

**FOAM LEARNING BEAM**  
10.01.00011

- Comfortable and stable
- Two beams can be linked to each other by hook and loop fasteners
- Includes anti-skid vinyl bottom
- Length 250cm, width on top 15cm, width on base 25cm, height 10cm

**LEARNING BEAMS**  
10.17.00010, 2.5m  
10.17.00011, 3m

This wooden beam covered in carpet is fitted with toggle hooks for attaching to Happy Gym bases or another identical beam. Height: 34cm. Width: 12cm. Length: 2.5m and 3m

## TRAMPOLINE

10.14.00039

Common technical features:

- 113x113cm tabular frame
- folding legs
- integrated high lift guards
- 65x65cm jumping bed
- integrated transport wheels
- width on base 25cm, height 10cm

## TRAMPOLINE

10.14.15041

With protection. Fun to jump on the spot or in multiple jumps.  
Overall dimensions with protections: 220x90x20cm (LxWxH).  
Frame: 210x80cm  
Bed: 183x53cm

## BABY TRAMPOLINE

10.14.04040

With protection. Safe and easy rebound Meets the needs of children from the age of 12 months.

Overall dimensions with protections: 77x77x20cm (LxWxH).

Frame: 73x73cm

Bed: 53x53cm

# FOAM SHAPES

High-quality PVC coated polyester fabric that meets European REACH safety standards

- High-quality PVC-coated polyester fabric, good flexibility, strong tensile strength, tear strength and adhesion strength
- Strong resistance to high and low temperature
- Safety grade M2 flame retardant, waterproof, moisture-proof
- Phthalate-free and meet European REACH safety standards

In a variety of shapes and in some cases with self fixing strips, these foam modules enable various play activities to be set up to encourage the development of coordination and balance in young children. There is a multitude of possible combinations but the modules can also be used alone or associated with the wooden range. Designed for children from 18 months to 6 years, they are constructed of polyurethane foam of different densities and are encased in a phthalate free 1000 denier PVC cover with M2 fire rating.

INCLINED MODULES

10.19.17081

10.19.11082

10.19.15083

10.19.15084

| Ref.               | Dimensions (LxWxH) | Weight (KG) | Colours         | Handles |
|--------------------|--------------------|-------------|-----------------|---------|

These modules help children learn rotations and experience their first sensations of speed associated with these movements, 101915089 has a shallower incline enabling children to develop the technique in a gentle way.

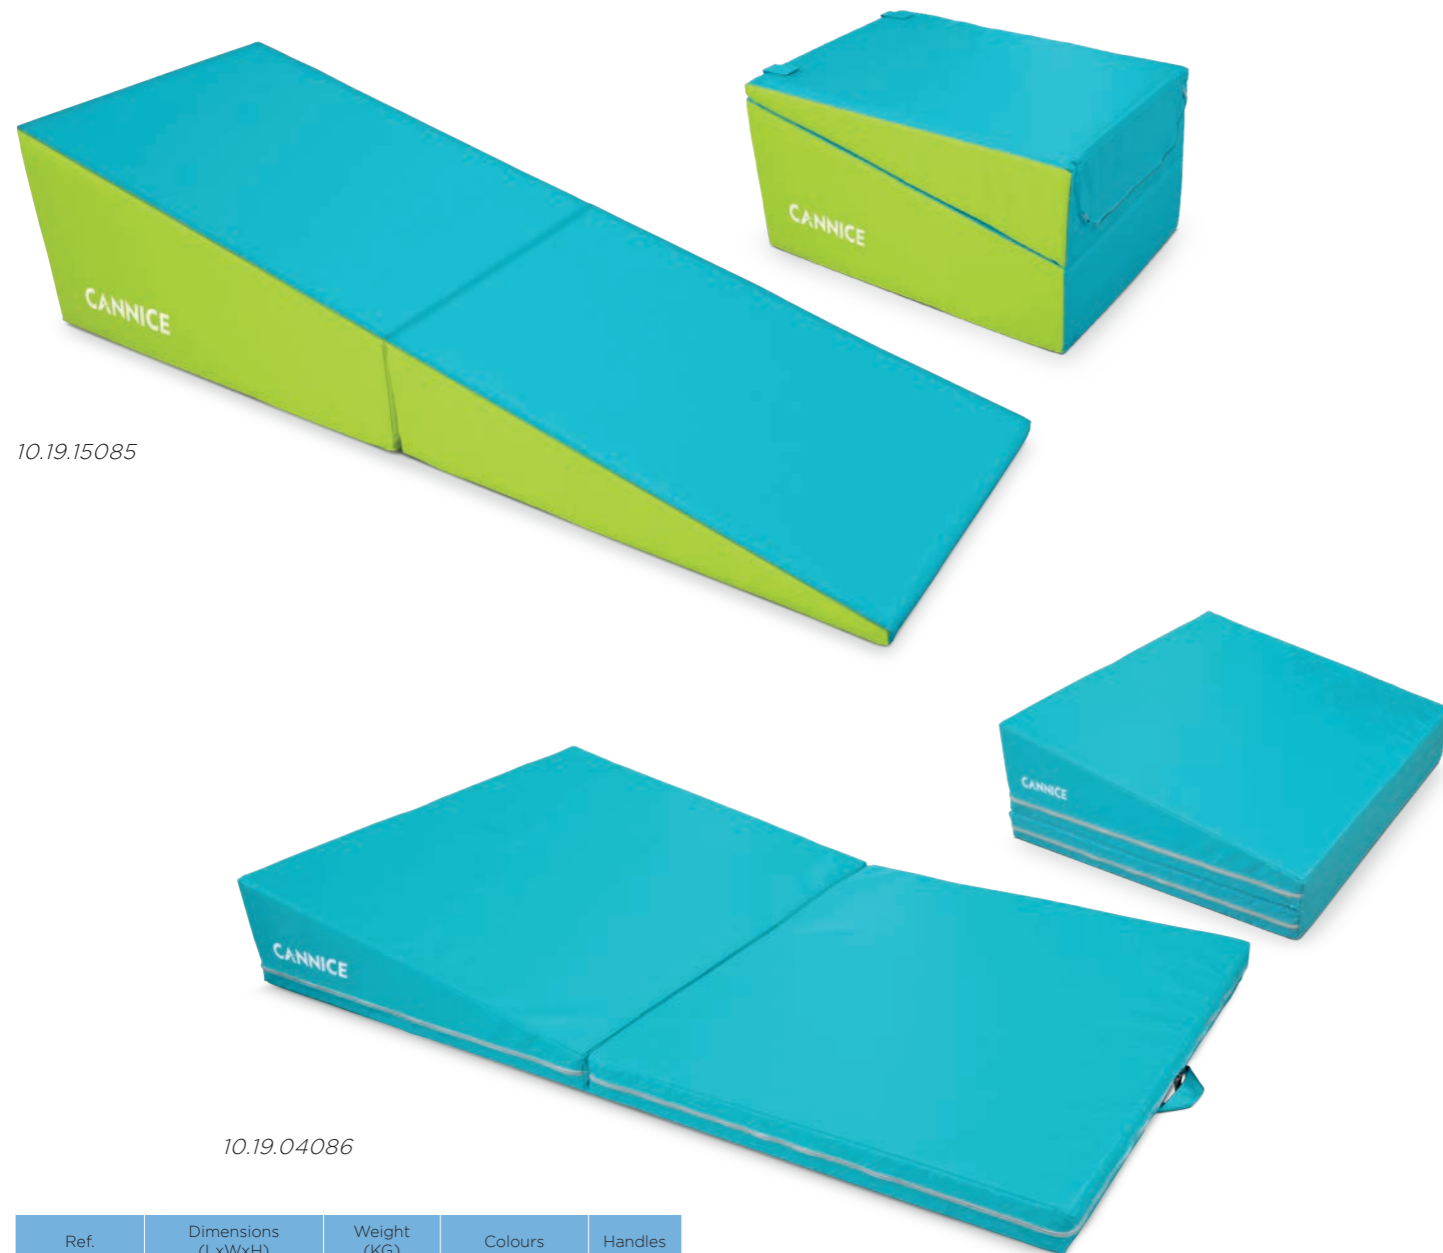

FOLDING SLOPED PLANES

Ideal for learning all rotations, the modules are usable in different ways thanks to their respective shapes. When folded, module 10.19.1505 converts into a rectangular block and module 10.19.04086 provides a shallower incline.

FOLDED DIMENSIONS

10.19.1505: 100x70x53cm

10.19.04086: 100x120x40/20cm

10.19.17090

**STEP TUNNEL FOAM MODULE**

10.19.17090

This multi-shape module combines a tunnel with steps and provides numerous options useful for developing motor skills (crawling, jumping, etc.). Used together with an inclined module it can be used to practice all rotations and can convert into a slide!

Height of steps: 20cm  
 Dimensions: 160x60x60cm (LxWxH)  
 Weight: 11kg

**CYLINDER MODULES**

Combined together, these modules allow work on children's balance and coordination.

| Small cylinder modules |                  |             |                 |         |

10.19.17094

Colours: blue and yellow  
 Dimensions: 150x30x30cm (LxWxH)  
 Weight: 4kg

**SUPPORT MODULES**

10.19.15095

Set of 2 elements.  
 Colours: green and blue  
 Dimensions: 60x60x30cm (LxWxH)

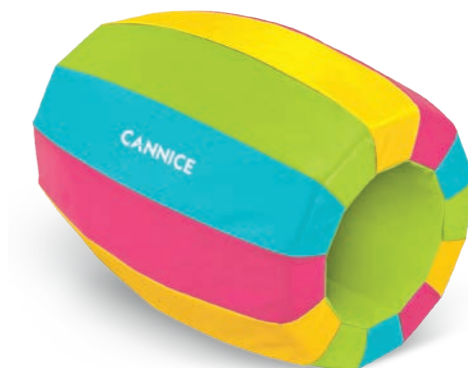

**TUBES**

10.19.14096

Set of 3 nesting teaching tunnels to be crossed over or passed.

Large module: 100x90cm (øXL)  
 Medium module: 80x90cm (øXL)  
 Small module: 60x90cm (øXL)

**TUNNEL**

10.19.08097

As part of a learning sequence it encourages development of motor skills and coordination. Children get to overcome obstacles, learn to roll and crawl. This tool provides multiple play activities.

Colours: multicolour  
 Dimensions: 97x85/45cm (XLø)  
 Weight: 12kg

**GIANT BRIDGE MODULE**

10.19.11098

Dimensions: 160x50x80cm(LxWxH)  
Weight: 11kg

**SMALL BRIDGE MODULE**

10.19.12100

Dimensions: 120x30x60cm(LxWxH)  
Weight: 5kg

**BRIDGE MODULE**

10.19.16099

Dimensions: 150x60x75cm (LxWxH).  
Bridge: 150x60x75cm (LxWxH).  
Half-moon: 60x60x30cm (LxWxH).  
Weight: 16kg.

10.19.12101

10.19.16102

10.19.15103

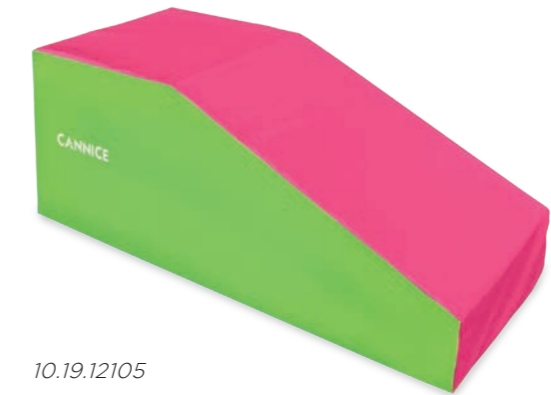

**RECTANGULAR BLOCK MODULES**

With their rectangular shape and different heights, these modules are ideal for introducing very young children to gymnastics. Perfect for performing those first jumping movements.

| Ref.        | Dimensions  | Weight (KG) | Colours          | Handles |
|-------------|-------------|-------------|------------------|---------|
| 10.19.12101 | 100x58x48cm | 3           | green and pink   | -       |
| 10.19.16102 | 70x38x24cm  | 1           | yellow and green | -       |
| 10.19.15103 | 150x60x60cm | 15          | blue and green   | 2       |

10.19.15104

10.19.12105

**RAISED WEDGE MODULES**

Usable as a mini slide or for learning to do rolls, these modules also help teach children to climb and manage fear of height.

| Ref.        | Dimensions     | Weight (KG) | Colours        | Handles |
|-------------|----------------|-------------|----------------|---------|
| 10.19.15104 | 99x56x45/20cm  | 5           | blue and green | -       |
| 10.19.12105 | 150x60x60/20cm | 12          | pink and green | -       |

**TRAPEZIUM MODULE**

10.19.10106

The platform lets children experience new sensations and helps them adjust to height.

Colours: blue and pink  
Dimensions: 120x67/15x49cm(LxWxH).  
Weight: 6kg

10.19.10106

10.19.15107

10.19.12108

10.19.16109

| Ref.        | Dimensions  | Weight (KG) | Colours         | Handles |
|-------------|-------------|-------------|-----------------|---------|
| 10.19.15107 | 100x48x42cm | 5           | blue and green  | -       |
| 10.19.12108 | 150x60x26cm | 7           | pink and green  | -       |
| 10.19.16109 | 80x38x33cm  | 3           | blue and yellow | -       |

**HEXAGON MODULES**

These modules are more stable than cylinders, helping develop balance and reduce fear of height. They are ideal for obstacle courses and performing forward rotations.

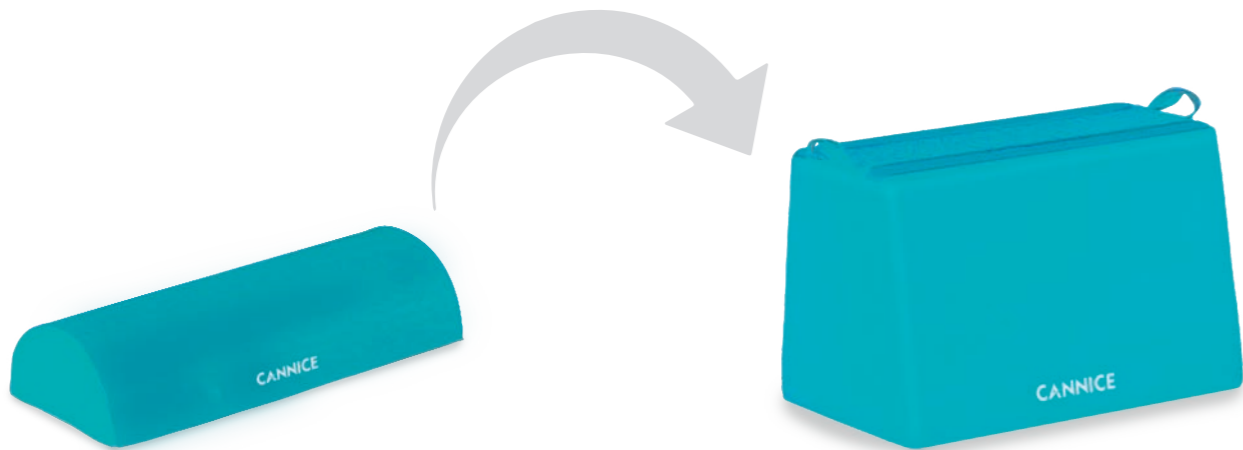

**DOME MODULE**  
10.19.08110

This dome shaped teaching module is excellent for allowing young children to experience their very first sensations of balance thanks to its rounded, sloping form. For older children the module serves as a rocker when turned over. With 2 carrying handles.

Colours: multicolour  
Dimensions: 46x150cm (HxØ)  
Weight: 18kg

Combined together, these two modules form a horse that can be used for learning basic vaulting movements (bunny hop, handspring, etc.)

**SHORT HALF CYLINDER MODULE**  
10.19.04112

Dimensions: 90x40x20cm (LxWxH)

**GYM MAILBOX**  
10.19.12111

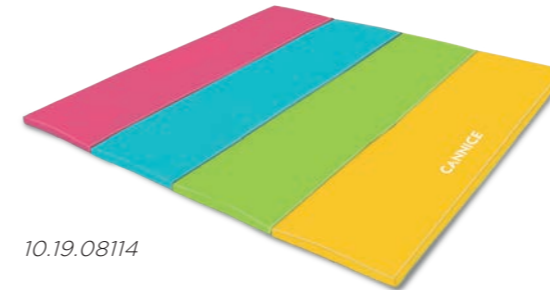

Ideal for first jumps due to its rounded shape. Colours: green and pink  
Dimensions: 70x39x37cm (LxWxH)  
Weight: 2kg

10.19.12112  
Dimensions: 90x 50 x 40 cm (LxWxH)

**SHORT TRAPEZIUM MODULE**  
10.19.04113

With 2 carrying handles.  
Dimensions: 90x60/40x60cm (LxWxH)

Cannice offers a range of mats perfectly suited to early childhood gymnastics and for making all your learning circuits properly safe. These mats and landing mats are encased in a phthalate-free PVC cover, 1.000 deniers, with M2 fire rating and are made of polyethylene foam.

10.19.08114

**RAINBOW FOLDING MATS**

These folding gymnastics areas are easily installed and stored away. They also represent excellent value for money when acquiring suitable mats for schools. These mats are created using a firm foam.

10.19.08115

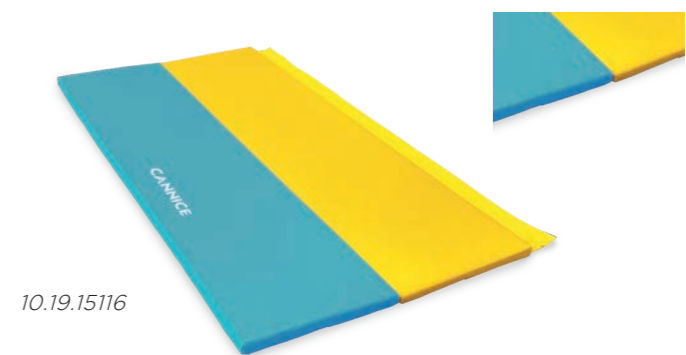

| reference   | dimension (LxWxTh) | weight | no. of colours |
|-------------|--------------------|--------|----------------|
| 10.19.00135 | 200x150x4cm        | 7      | 3              |

## WOODEN RANGE

Our wooden range are manufactured in stained and varnished wood, the ladders are available in 4 models: large and small, straight or curved. They form an interlinking modular set comprising the various components shown here and enable infinite combinations to be created. They are easy to assemble and adjust and comply with the safety requirements of French standard NF S 54-300 (overturning and stability)

**LARGE STRAIGHT LADDER**  
10.17.00027

7 rungs.  
Dimensions: 190x55cm (HxW)

**LARGE CURVED LADDER**  
10.17.00028

Identical to Ref EG0100 but with a curved shape.  
Dimensions: 190x5cm (HxW)

**SMALL STRAIGHT LADDER**  
10.17.00029

4 rungs.  
Dimension: 111x55cm(HxW)

**SMALL CURVED LADDER**  
10.17.00030

Identical to Ref EG0103 but with a curved shape.  
Dimensions: 111x55cm(HxW)

**WOODEN SLIDE**  
10.17.00031

Attachable to ladders.  
Dimension: 162x55x106cm (LxWxH)

**CLIMBING WALL**  
10.17.00032

Delivered with a set of 12 climbing holds, Attachable to ladders.  
Dimensions: 190x55cm (HxW)

**HORIZONTAL JOINING PIECE**  
30.17.00025

Unit. It allows the ladders to be fitted together.  
Supplied with 4 tightening wheels and 4 tightening nuts.

**ASSEMBLY PIECES**  
30.17.00026

The pair. It allows the ladders to be fitted together.  
4 possible angles which allow a multitude of combinations.  
Supplied with 8 tightening wheels and 8 tightening nuts.

**SET OF CLIMBING HOLDS**  
30.31.00285

Fun shapes, made of resin, to be fixed on the climbing board 10.14.00008 + 10.17.00032

**STABILIZER**  
10.14.00046

Unit. Absolutely essential, it gives stability to your set due to its non-slip pads, supplied with a removable metal bar and a tightening wheel.

**BASES**

Happy Gym bases are made of wood. They are easily stackable and modules of the same level can be created by stacking one or more bases of different heights. The four sides of the bases have holes for attaching other components of the system via a simple locking or fixing method. They are suitable for teaching and play exercise. They can be combined with wooden mini-bars, learning beams, wooden ladders and benches.
